## RoHS Certificate of Compliance

This document certifies that the materials used in Endwave's Bare Die or packaged MMICs series part numbers with the EWXXX prefix including all packaged die products are in compliance with Directive 2002/95/EC of the European Parliament and the council of 27 January 2003 on the restriction and use of certain hazardous substances in electrical and electronics equipment (RoHS Directives). The above stated components are deemed compliant in accordance with the definitions given in the directives.

This document also certifies that the materials declaration as provided by Endwave Corporation data sheets are accurate and in compliance to the directives. Please visit the Components section of our web site for more information including application data sheets describing the materials of each packaged RoHS Compliant product.
